User Conference empolis:exchange
November 15-16, 2006
Bertelsmann Residence, Unter den Linden 1, Berlin, Germany

We invite you to attend the empolis User Conference on November 15-16, 2006 in the Bertelsmann Residence in Berlin.

Take the opportunity on these two days to network with your peers and empolis employees from management, professional services, development and customer support. Exchange experiences, increase your technical knowledge and learn about new trends and developments in knowledge management, content management and information access.

The program provides for an interesting mix of presentations and break-out sessions. Interesting speakers will introduce their projects and best practices. **Our keynote speaker Rolf Schumann, Director Solution Sales SAP NetWeaver, will highlight the topic "IT Delivered Business Innovation"**. An exciting evening in "Berlin style" will round off the program.

Click here for details about the event: www.empolis.de/userconference.php

Ample opportunity for networking and exchanging knowledge is guaranteed for everyone!

Join us in Berlin. We are looking forward to seeing you there.

Stefan Wess
Managing Director

Norbert Daut
Vice President Professional Services

Vista review DART application at John Wiley & Sons

Vista International, a leading provider of software and services to the publishing industry, has written an article about DART (Digital Asset Repository and Retrieval), a digital archive developed by empolis for John Wiley & Sons.

The report is a case study about DART which makes interesting reading. Since they interviewed empolis several months ago the numbers have gone up to nearly 6500 publications in DART.

Read about the project, lessons learnt and the benefits achieved, such as increased reuse of content and shorter initial print runs. The article can be found here: http://www.vistacomp.com/about_us/research.html#dam

tcworld Conference and tekomp Exhibition 2006 from November 8 - 10, 2006 in the Rhein-Main Conference Center in Wiesbaden, Germany

The `tcworld` conference and tekomp exhibition, formerly known as the EIDC, has developed into a major international event in the field of technical communication. The conference is geared toward professionals and decision-makers responsible for the creation of information about products and/or services. Technical documentation fit to meet today's demands is the true challenge for specialists.

Consult us about:

- the e:Content Lifecycle Suite - the intelligent publication tool for creation and reuse of media-independent content, version and variant management, integrated translation management and 3D animation
- the Industry Catalog Solution - the solution for managing, editing and publishing complex product information.

Come to speak to us at our booth about our presentations:

"Modular document creation and management with the e:Content Lifecycle Suite"
"Efficient content management: challenges, solutions, advantages"
"DITA Live - a DITA use case based on a CMS solution"

Visit us at booth 34 in Hall 9. Make arrangements for your personal appointment at the booth with Michaela Van Cleve-Kempf mailto michaela.cleve-kempf@empolis.com. She would be happy to provide you with a free ticket to the exhibition with the confirmation of your appointment.

Looking forward to seeing you in Wiesbaden!
